YOUR TRUSTED TECHNOLOGY PARTNER

At Keybridge IT Solutions, we help businesses stay secure, supported, and connected with clear, reliable IT services tailored to modern working needs. Whether you need AI, Cyber Security, or ongoing Support, our team is here to make technology work for you.

As a Microsoft Partner, we deliver solutions built on trusted, industry-leading technology from Microsoft 365 and Azure to Copilot-powered AI that enhances productivity and strengthens security across your organisation.

For 15 years, Keybridge IT Solutions has been helping customers overcome everyday IT challenges with proactive support and practical solutions. Our approach is simple: reduce disruption, improve security, and give your business a dependable technology partner you can turn to when it matters most.

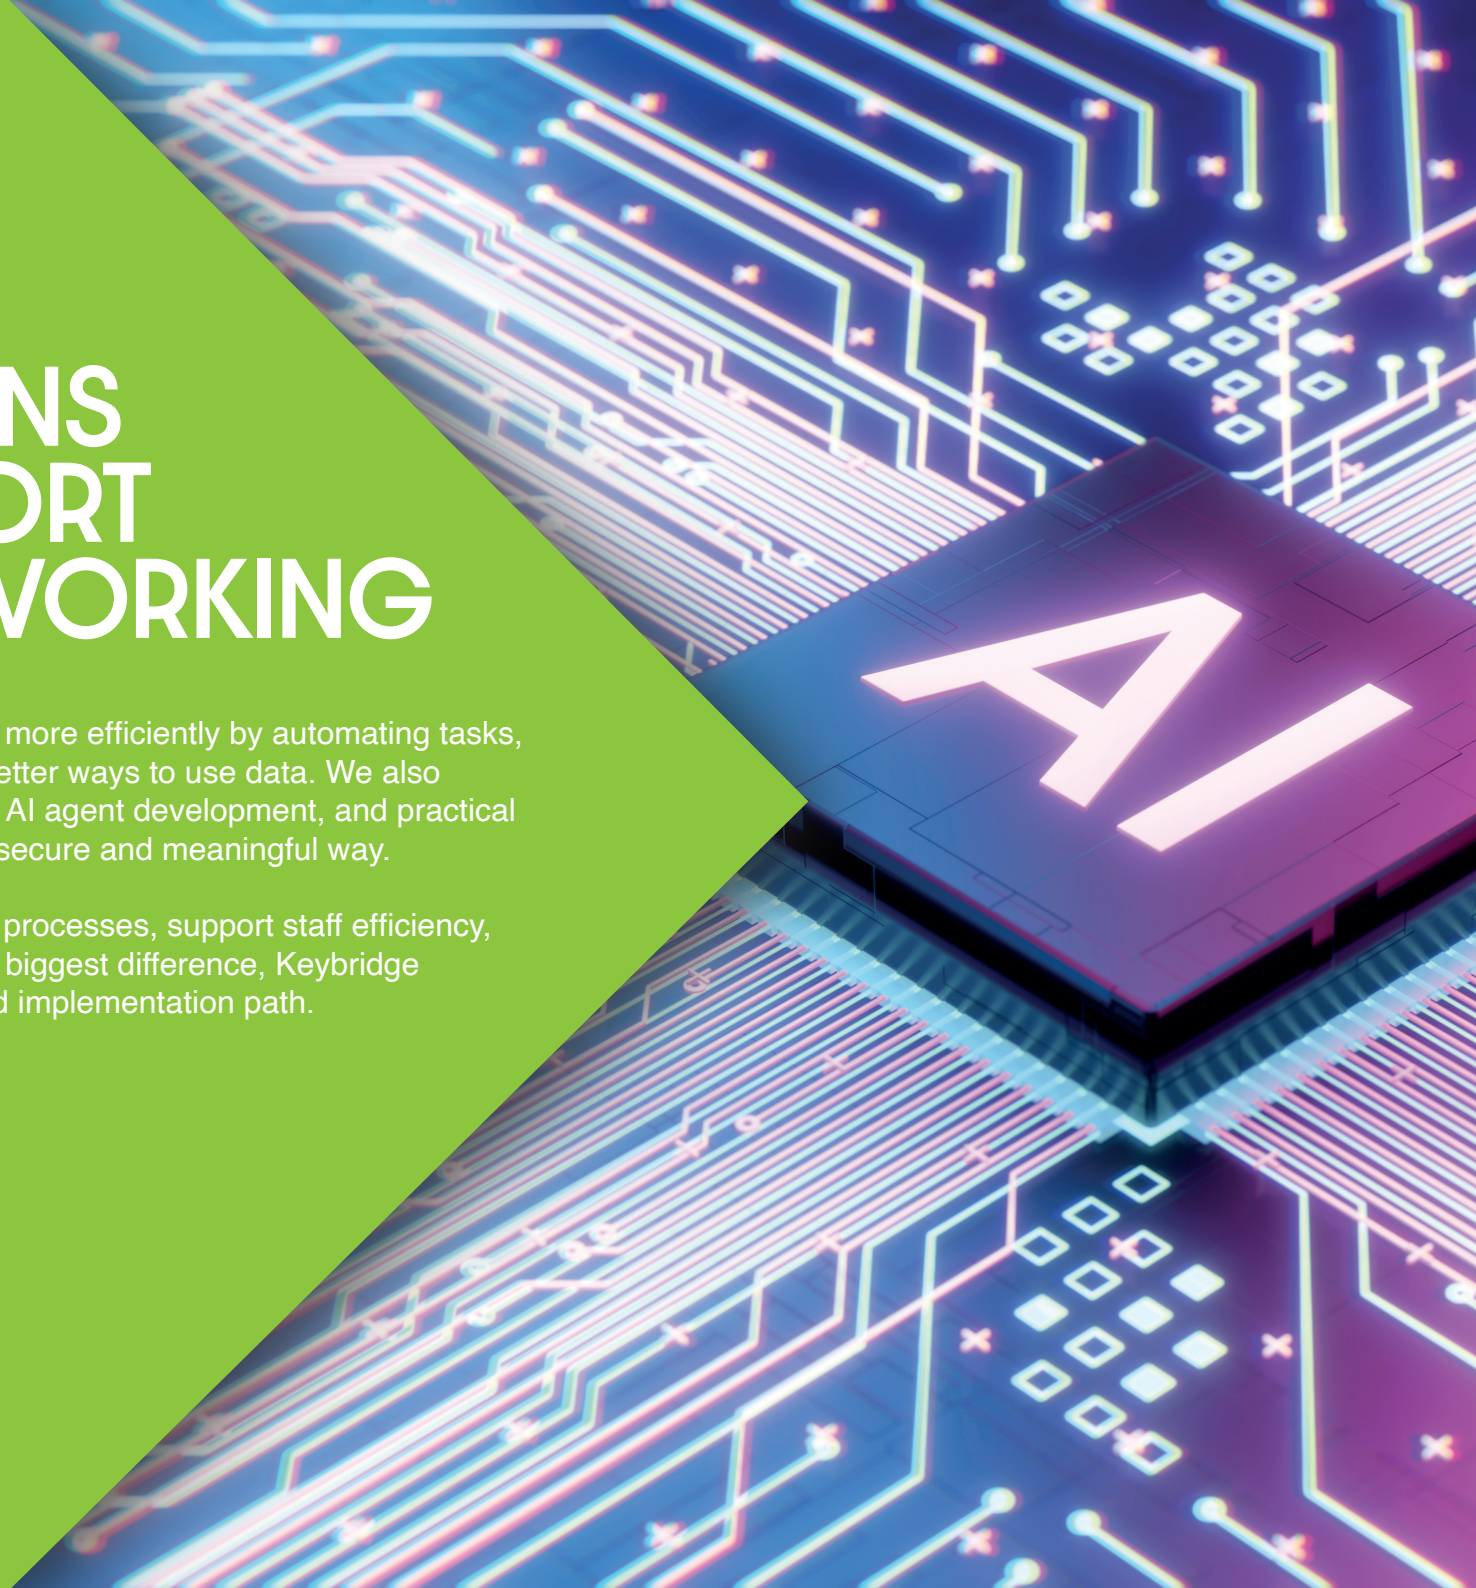

We work with businesses that want responsive service, expert advice, and a team that understands the pressure of keeping operations running smoothly.

Copilot

AI SOLUTIONS THAT SUPPORT SMARTER WORKING

Our AI services help businesses work more efficiently by automating tasks, improving workflows, and unlocking better ways to use data. We also provide expertise in Microsoft Copilot, AI agent development, and practical consultancy to help you adopt AI in a secure and meaningful way.

Whether you want to improve internal processes, support staff efficiency, or understand where AI can make the biggest difference, Keybridge can guide you through the options and implementation path.

What AI can help with:

- Microsoft Copilot adoption
- AI security & governance
- AI readiness assessments
- Automating repetitive tasks
- Improving team productivity
- Supporting smarter decision-making
- Streamlining business processes
- Building AI agents

CYBER SECURITY THAT PROTECTS YOUR BUSINESS

Cyber threats are constantly evolving, so protection needs to be proactive rather than reactive. Keybridge IT Solutions provides cyber security services designed to keep your systems, users, and data safer through layered protection and expert guidance.

Our cyber offering includes email security, advanced threat protection, anti-virus with ransomware protection, security audits, and consultancy around IT and Microsoft security. We also work with partners to support services such as Cyber Essentials ISO 27001 more important than ever and penetration testing.

What cyber support can include:

- Email security.
- Threat protection.
- Ransomware defence.
- Security audits and consultancy.
- Compliance-focused security support.

RELIABLE IT SUPPORT WHEN YOU NEED IT

Our support service is built to keep your business running with minimal disruption. We provide fully managed IT support, monitoring, maintenance, patch management, and network monitoring, giving you confidence that your technology is being looked after.

Support can be tailored to your needs, from more flexible pay-as-you-go options through to more comprehensive managed support arrangements. Keybridge also offers support for Microsoft 365 and cloud services, helping customers get the most from their workplace technology.

Support includes:

- Unlimited support options.
- Fully managed IT support
- Monitoring and maintenance of work devices including phones.
- Patch management.
- Network monitoring.
- Microsoft 365 support.

WHAT YOU GET AS A NEW CUSTOMER

When you join Keybridge IT Solutions, you are not just getting a service provider — you are getting a team that knows your business and supports you properly from day one. Every new customer is assigned an account manager, giving you a clear point of contact and a more personal experience.

Your account manager helps coordinate support, answer questions, and make sure you know how to access the services you need. This keeps communication simple and ensures your onboarding feels smooth and structured.

Your new customer benefits:

- Dedicated ACM.
- Structured onboarding
- Direct access to support.
- Faster help when issues arise.
- Proactive partner focused on your IT.

FAQS

We've answered some of the most common questions to try and help you find the information you need quickly. If you still need support, your account manager or our team will be happy to help.

WHAT IS THE FASTEST WAY TO LOG AN ISSUE?

The quickest way to get help is to:

- Call the Helpdesk for urgent issues
- Email support to automatically create a ticket
- Use the customer portal to log and track requests

All requests are tracked through our service desk system to ensure nothing is missed.

WHAT IS FULLY MANAGED IT SUPPORT

Fully managed IT support means we handle everything your systems, security, updates, and day-to-day issues with 24/7 access to our team so your business keeps moving.

All-in IT cover; every device and system managed

24/7 support; help whenever you need it

HOW DO I CONTACT THE KEYBRIDGE IT HELPDESK?

You can reach our support team 24/7 through multiple channels:

UK: +44 0330 335 4444
USA: +1 646 902 9417
APAC: +63 286396721
Email: helpdesk@keybridgeit.com
Online Chat: via our customer portal

HOW DOES YOUR SUPPORT SERVICE OPERATE?

We provide fully managed IT support, which includes:

- Proactive monitoring & maintenance
- Fast response to issues
- Remote and on-site support
- Ongoing optimisation of your IT environment

Our approach is to prevent issues before they impact your business.

WHAT HAPPENS WHEN I LOG A TICKET?

Once a ticket is logged:

- Your request is logged & prioritised
- An engineer is assigned to investigate
- The issue is resolved or escalated if required
- You are kept updated throughout

We also collect feedback after each ticket to continuously improve our service.

HOW QUICKLY WILL MY ISSUE BE RESOLVED?

Response and resolution times depend on:

- The priority of the issue
- Your agreed service levels
- The complexity of the problem
- Critical and High are responded to within 20 minutes and resolved within 2 hours

All targets are outlined in your service agreement.

WHO IS MY MAIN POINT OF CONTACT?

You will have a dedicated Account Manager who:

- Acts as your main point of contact
- Supports IT strategy and planning
- Helps with escalations where needed
- Monthly reporting

WILL SWITCHING PROVIDERS BE DISRUPTIVE?

Switching to Keybridge IT Solutions is smooth and low-disruption. We manage the full handover, work directly with your current provider, and follow proven Microsoft Partner onboarding processes to keep everything running without downtime.

DO YOU OFFER ON-SITE SUPPORT AS WELL AS REMOTE?

Yes. Most issues are resolved remotely, but we also provide on-site support when required for hardware, networks, or more complex issues. This is 24/7 across all locations.

WHAT DOES THE HELPDESK MANAGER DO?

The Helpdesk Manager oversees the service desk, ensuring:

- Tickets are prioritised and managed correctly
- Issues are escalated appropriately
- Service quality and response times are maintained

WHAT DOES THE KEYBRIDGE AGENT DO?

Our monitoring agent is installed on your devices and:

- Continuously monitors system health
- Alerts us to issues before users are impacted
- Enables fast remote support
- Helps manage updates, patching, and security

This forms a key part of our proactive support model.

WHY CHOOSE KEYBRIDGE IT?

- 24/7 access to experienced engineers
- Proactive, not reactive support
- Dedicated account management
- Strong focus on security and Microsoft technologies
- Flexible with the products and services offered
- Webinars
- Newsletters

CAN YOU HELP WITH NEW STARTERS AND LEAVERS?

Yes, we handle:

- User account setup and removal
- Device preparation and configuration
- Access and permissions
- Security and compliance requirements and much more
- Customised starter and leaver forms

DO YOU SUPPORT MICROSOFT 365?

Yes. We provide full support including:

- Management and administration
- Migrations and setup
- Licensing advice
- Troubleshooting and optimisation
- Partner pricing

Microsoft
Solutions Partner

WHAT IS THE CUSTOMER PORTAL USED FOR?

The portal allows you to:

- Log and track support requests
- View progress and updates
- Access ticket history
- Communicate directly with our support team

It provides full visibility over your IT support activity.

DO YOU PROVIDE CYBER SECURITY SERVICES?

Yes. Our services include:

- Email filtering and anti-phishing
- Antivirus and ransomware protection
- Security monitoring and audits
- Compliance support
- Antivirus & ransomware protection
- Microsoft Defender Experts
- Email filtering and anti-phishing
- Backup and Disaster Recovery
- Security monitoring and audits
- Cyber Essentials and ISO support
- Cyber Awareness training

WHAT TYPES OF ISSUES CAN YOU HELP WITH?

We support a wide range of systems including:

- PCs, laptops, and servers
- Networks, internet, and connectivity
- Printers and telephony systems
- Cloud platforms and business applications

We cover anything “IT”
